

# SWAMPS, RIVERS & RANGES INC

## Bird Monitoring in 2023

**FEB**

### SUMMER SURVEYS

Throughout February is the best time to get out and conduct the Summer surveys.

**APR**

### AUTUMN SURVEYS

Throughout April is the best time to get out and conduct the Autumn surveys.

**JUL**

### WINTER SURVEYS

Throughout July is the best time to get out and conduct the Winter surveys.

**NOV**

### SPRING SURVEYS

Throughout November is the best time to get out and conduct the Spring surveys.

All timing for surveys is approximate, if the chosen dates don't suit a week either way is ok, we understand many influences such as weather can disrupt surveys. If there is a reason you anticipate you will be unable to conduct your surveys eg. holiday or illness, please let us know.

SRR value the ongoing efforts of volunteers and their dedication to conducting seasonal surveys which contribute to ongoing data for research. We appreciate surveys being sent through when complete to [swampsriversranges@gmail.com](mailto:swampsriversranges@gmail.com)

SRR offer a number of extra opportunities to conduct bird or other surveys throughout the year particularly around November.

If you are interested in these additional opportunities or in the SRR bird monitoring program please email us at [swampsriversranges@gmail.com](mailto:swampsriversranges@gmail.com) We have a number of resources available to support volunteers, such as survey sheets etc. which can be provided digitally.
